Education

B.Tech, Computer Science, Sitare University

Course Completion - May '26

Relevant Coursework: Advanced Data Structures and Algorithms, Deep Learning and Applications, Operating Systems, Web Application Development, Object-Oriented Programming in Java, Java Multithreading and Design Principles, Search Engines and Information Retrieval, Machine Learning, Artificial Intelligence, and Database Management Systems.

GPA: **8.35**, Honors: **Dean's List**

Technical Skills

Programming Languages: Java, Python, JavaScript

Web Technologies: Spring Framework Basics (Spring Boot, Maven, JPA, JDBC), React.js, Django, Flask, HTML, CSS

Database Management: MongoDB, PostgreSQL, MySQL

Tools and Technologies: Linux, Selenium, PyAutoGUI, Git, GitHub, NumPy, Pandas

Work Experience

Software Developer Intern, Beans.ai, Noida

May '25 - Aug '25

- **Web Development:** Incorporated sorting and drag-and-drop features in MUI tables, improving navigation by 40%.
- **Frontend Engineering:** Streamlined React performance with virtualization, enabling 2x larger dataset handling.
- **MUI Code Optimization:** Upgraded 20+ MUI components (v4→v5), enhancing scalability and UI consistency by **30%**.
- **Tools and Technologies:** React.js, JavaScript, Selenium, Git, GitHub, MUI (v4/v5), React DnD, React Window

Robotic Process Automation Intern, ZingHR, Mumbai

May '24 - Aug '24

- **Automation:** Designed RPA pipelines for employee data, reducing manual workload by **80%**.
- **Error Tracking:** Devised live monitoring and error logging systems, accelerating informative issue resolution.
- **Data Validation:** Implemented PAN/Aadhaar validation with column-wise checks, increasing data accuracy by **70%**.
- **Tools and Technologies:** Selenium, PyAutoGUI, Python, Microsoft Excel

Projects

ML-Based News Portal

Built ML portal with summary, fake news detection, sentiment analysis and personalized news/job recommendations.

Tools and Technologies: Python (Flask), React.js, Clustering, Naive Bayes, Sentiment Analysis and News APIs

ML-Based Chatbot

Constructed an ML chatbot with BERT embeddings and clustering for accurate, context-aware query responses.

Tools and Technologies: Python, BERT, Clustering Algorithms, HTML, CSS and JavaScript

News-URL-Scraper

Created a Flask-based solution to extract, analyze, and summarize news with sentiment and multilingual support.

Tools and Technologies: Python (Flask, NLTK), Text Processing, Sentiment Analysis, HTML and CSS.

Extracurricular Activities

Coordinator, Coding Club, Sitare University

Jan '25 - Present

Scholarships

100% B.Tech CS, Scholarship, Sitare Foundation

Oct '23 - Present
